Vetina CS3

Mindray Animal Medical are committed to offering human standard equipment and provides an animal-specific endoscope system with 1080P Full HD imaging by meeting demands of vets.

Medical Quality

Vetina camera head

suitable for veterinary practice

- Exclusive design to help keep balance
Lightweight, reduces surgeon fatigue during long procedures
- IPX7 waterproof rating
Submersible for cleaning & disinfection

Optical Zoom Ensures Less Image Artifact

- Focal length: 14-30mm, 2X optical zoom without losing quality

3-Chip CMOS Powerful Image Processing Device

Compared with CCD, CMOS has better light sensitivity and less noise. The sensors process the three primary colors separately, presenting more realistic colors and clearer organization details, while realizing zooming and focusing simultaneously.

CMOS performance

CCD performance

Medical Quality

Powerful image post-processing technology

- Brightness level adjusts automatically for immediate identification of hemorrhage
- Effectively reduces motion blur
- Image presets for four different procedures

27" Full Optical Bonding Medical Monitor

- Medical standard
- Full sealed: allowing wipe disinfection, prevent moisture getting into the display
- LOCA bonding: Better transparency, anti-glare, 178 degree viewing angle

Optical Bonding Panel Technology

Suppress the reflection and retraction of light

LOCA bonding panel

Normal panel

Veterinary-Specific

**Veterinary Insufflator
Vetina GS3**

- Mindray's exclusive algorithm provides stable pressure
- Preset values specific for veterinary medicine
- Four insufflation modes available

7" Touch screen

Low-cost After Sales Service

**Maintenance-free LED Light Source
Vetina LS3**

- Equivalent to 300W xenon light source
- Compatible with third-party light cable
- Maintenance-free
- Service life of 10,000 surgeons

20000h
10000 surgeons

6000K
LED light source

Veterinary-Specific

Built-in USB Recording

- FHD photo capture and video recording
- Convenient sharing and clear projection display on academic events
- Easy recording with just one click
- Meets advertising demands of private animal hospitals

Anti-Fogging HD Endoscope

*Autoclaved

- * 25-150mm extended depth of field
- Special anti-fog technique
- Effectively avoids lens distortion
- 5mm,3mm Suitable for veterinary applications

*Marked as LPS430M Endoscope parameters
LPS30 Endoscope's depth of field is 10-100mm
